

XVII WORLD VETERINARY POULTRY ASOCIATION CONGRESS **CANCUN, MEXICO, August 14 – 18, 2011**

The 2011 WVPA Congress is quickly approaching. Please ensure your participation by registering now at www.wvpc2011cancun.org; A great scientific program, recognized speakers, world-class location/facilities and the most important sponsors, all this awaits you in beautiful Cancun, Mexico. Here is a brief summary of scientific activities (you can already download the full scientific program from our web page, click Download Scientific program pdf. from the drop-down menu on the left):

SCIENTIFIC PROGRAM

[Download Preliminary Scientific Program](#)

More than 220 papers including oral and posters presentations

| | |
|---|--|
| Avian Influenza | Protection to variants, outbreak reports, evaluation of biosecurity methods, immune response mechanisms, phylogenetic analysis, genetic variability and reassortment in different areas, influence of maternal antibodies, protection assessments accuracy, virus evolution in countries vaccinating and not vaccinating, evaluations of different vaccines protection. Also a Workshop on AI, see below. |
| Newcastle Disease | Epidemiology, clinical behavior, molecular studies, virus inactivation methods, protection assessments, interaction with Gumboro vaccination, recombinant vaccines evaluation, clinical protection and shedding, evaluation of enteric strains, onset of protection. |
| Mycoplasma | Pathogenicity and clinical manifestation of new strains, isolation in different avian species, MIC tests, Real time PCR findings, effect of oil emulsion MS vaccines on eggshell apex abnormalities. |
| Other viruses: IBD IBV POX Avian Leukosis Inclusion Body Hepatitis Marek's disease | Avian Leukosis in China, Inclusion body hepatitis in Sweden, Marek's Disease oncogenicity and diagnostics, Poxvirus report, Gumboro disease protection, West Nile Virus in Poland, Infectious Bronchitis isolation and characterization in Mexico, IB pathogenicity in Germany, IB variant reports, IB in females, Nephropathogenic IB and protection assessment in a field challenge, IBD protection improvement with vector vaccines, HVT-IBD vector vaccines protection, picornavirus diagnostics, HVT- IBD vector vaccines compatibility with Marek's Rispens vaccines, protection against vvIBDV infection. |
| Toxicosis | Effects of arsenic, Ochratoxin A amelioration with Silymarin and Vit E, impact on performance in layers of Ochratoxin and Aflatoxin B1, acetic acid effects, immunotoxicological effects of Ochratoxin. |

| | |
|--|---|
| Salmonella and Campylobacter | <i>Salmonella typhimurium</i> DT 41 diversity in broiler breeders, Fowl typhoid protection duration of 9R vaccine, protection with a vaccine based on <i>Salmonella infantis</i> , evaluation of a live attenuated <i>Salmonella enteritidis</i> vaccine using dual DIVA, <i>Salmonella enterica</i> in layers in Bangladesh, <i>Campylobacter</i> prevalence in broilers in Spain, prevalence and antibiotic susceptibility of <i>Campylobacter</i> spp. |
| Management | Catching stress, Condemnations, Dead on Arrival, pre-transport and transport stress. |
| Other bacterial diseases | <i>Ornithobacterium rhinotracheale</i> RT PCR, <i>Streptococcus equi</i> infection, molecular studies with <i>Enterococcus cecorum</i> in broiler breeders and offspring, <i>E. coli</i> chronic salpingitis and peritonitis, <i>Enterococcus faecalis</i> vertical transmission, <i>E. coli</i> diversity and stability in broiler production, pathogenic <i>E. coli</i> in air samples, <i>Clostridium</i> dysbacteriosis in broilers, <i>Avibacterium paragallinarum</i> diagnostics by phage sequences, <i>Gallibacterium</i> species clonal linages, |
| Coccidiosis and other parasites | Coccidia sensitivity to Monensin and Salinomycin, effect of a recombinant coccidial antigen vaccine, immunoglobulin “Y” role in protection against <i>Eimeria tenella</i> , field behavior of a coccidial vaccine during 2010, Pathogenesis of Histomoniasis in layer hens, <i>Histomonas meleagridis</i> in vitro attenuation, influence of non-starch polysaccharides levels on Histomoniasis. establishing reliable prevalence data of helminth infections. |
| Nutrition | Chelated minerals and broiler performance, performance with phytase with different calcium and phosphorous sources, Nicarbazin and intestinal health, evaluation of different ME levels in finisher phase, last generation natural growth promoters, pumpkin seed as a growth promoter, vegetable proteins. |

A variety of avian species covered including: chickens, turkeys, pheasants, geese, and ducks.

Take a look at our Poster Program also at our webpage; it has a complete coverage of the main current problems of the poultry industry and approaches for alternative solutions.

WORKSHOPS

| AVIAN INFLUENZA | MYCOTOXINS | FOOD-SAFETY |
|--|---|--|
| <p>Topics on the major concerns about AI will be addressed. “Why Influenza virus is a threat to animals and human beings?” What is and will be the role of vaccination in the control or as a source of variations of AIV? And how biosecurity measures have evolved for AIV control?</p> <p>Presentations and a discussion panel.</p> <p>Our guests: Alejandro García, Daniel Pérez, David Suarez, José Quesada.</p> | <p>A complete review of the most frequent mycotoxin problems around the world.</p> <p>The evolution in the feeds composition, caused by the grain supply issues has created new challenges. The most recent experiences with the different control resources now available will be fully discussed.</p> <p>Our guests: Juan Carlos Valladares, Carlos Augusto Mallmann, and a recognized panel of experts.</p> | <p>A complete review of the relations of intestinal integrity, bacterial diseases, <i>Salmonella</i>, <i>Campylobacter</i>, <i>E. coli</i>, infections, toxic residues on the quality of egg and poultry meat.</p> <p>Presentations and a discussion panel of the different alternatives to prevent human health issues.</p> <p>Our guests: Cecilia Rosario, Lisa Nolan, Tim Cummings, José Linares, Pilar Castañeda and Ofelia Flores (to be confirmed).</p> |

KEYNOTE SPEAKERS

| Speaker | Topics | Institution |
|--|---|---|
| Mohamed Hafez | <i>Turkey diseases and current challenges</i> | Institute of Poultry Diseases, Faculty of Veterinary Medicine, Free University Berlin |
| Guillermo Zavala | <i>Viral Respiratory Diseases of Poultry: A Continuous Challenge</i> | Poultry Diagnostic and Research Center, University of Georgia, Athens, Georgia, USA |
| Richard Ducatelle | <i>Salmonella control, present status and future perspectives</i> | Ghent University, Belgium |
| Trudy Wassenaar | <i>Following an imaginary Campylobacter population from farm to fork and beyond.</i> | Center for Biological Sequences at DTU, UK |
| Michael Hess | <i>Fowl adenovirus infections in chickens: current status and control approaches</i> | Poultry Medicine Division, Wien University |
| Lisa K. Nolan | <i>Extraintestinal pathogenic Ecoli, molecular Biology</i> | Department of Veterinary Microbiology and Preventive Medicine, College of Veterinary Medicine, Iowa State University, Ames, Iowa, USA |
| David Chapman | <i>A Selective Look at Recent Advances in Our Understanding of Eimeria and Coccidiosis</i> | Department of Poultry Science, University of Arkansas, Fayetteville, Arkansas, USA |
| Kirk C. Klasing | <i>Nutritional Diseases: Role of Infectious Challenges</i> | Department of Avian Sciences, University of California, Davis, California, USA |
| Ken Powell & H. John Barnes | <i>Diseases of Broiler Breeders</i> | Veterinary Services Department, Aviagen Broiler Breeders, Huntsville, Alabama, & North Carolina State University College of Veterinary Medicine, Raleigh, North Carolina, USA |
| Silke Rautenschlein | <i>Immunosuppressive diseases of poultry: diagnosis and control</i> | Univ. of Veterinary Medicine of Hannover, Germany |
| Alejandro Garcia | <i>Update in Avian Influenza Virus focusing on Mexican Situation</i> | Avilab, Research Center, Tepatitlan, Jalisco, Mexico |
| Erica Spackman | <i>"Houghton Lecture" Viral diagnostics: will new technology save the day?</i> | Southeast Poultry Research Laboratory, USDA Agricultural Research Service, Athens, Georgia, USA |
| Claire Knott | <i>Animal Welfare in Poultry</i> | Crowshall, Consultancy, Norfolk, UK |
| Carlos Augusto Mallmann | <i>Mycotoxins Problems in Poultry</i> | Universidade Federal de Santa Maria, Brazil |
| Randall Singer | <i>Antibiotic Resistance</i> | Department of Veterinary and Biomedical Sciences, College of Veterinary Medicine, University of Minnesota, St. Paul, Minnesota, USA |

“We will also celebrate 250 Years of Veterinary Medicine and the 2011 World Veterinary Year”.

Remember that with your hotel fare at the Moon Palace, all services are included: 4 nights 5 days from August 14 to August 18 2011, king size room or two queen beds. All rooms are Deluxe with Jacuzzi, All food and drinks at the hotel, including alcoholic beverages. All food and drinks are first class; Full Internet Access in all hotel areas and Congress Center, Snacks either in hotel or when available at the Congress Center, Includes 2 tours of your choice – See details in tours section-, Long distance phone calls throughout Mexico, Canada and the USA, Room service 24 hours, Unlimited Access to Fitness center, All taxes and tips are also included, Cover charges and alcoholic beverages in Andromeda’s Disco, One bottle of wine per room the first night, Airport-Hotel-Airport Transportation, on August 14 and August 18

OUR SPONSORS

XVII
Congress of The
WVPA
Cancun México 2011
From 14 to 18 August

Room **single**
occupancy
package:
\$1,380.00 usd

Room **double**
occupancy
package:
\$810.00 usd

*Prices per person in us dollars

INCLUDES:

- ▶ 4 nights 5 days from August 14 to August 18 2011.
- ▶ King size room or with two full beds. All rooms are Deluxe with Jacuzzi.
- ▶ All food and drinks at the hotel, including alcoholic beverages. All foods and drinks are first class.
- ▶ Full Internet Access in all hotel areas and Congress Center
- ▶ Snacks either in hotel or when available at the Congress Center
- ▶ Includes 2 tours of your choice – See details in tours section-
- ▶ Phone calls in all Mexico, Canada and USA
- ▶ Room service 24 hours
- ▶ Access to Fitness center
- ▶ All taxes and tips are also included
- ▶ Cover and alcoholic beverages in Andromeda's Discotheque
- ▶ One bottle of wine per room the first night
- ▶ Airport-Hotel-Airport Transportation, from August 14 and departures in August 18

XVII
Congress of The
WVPA
Cancun México 2011
From 14 to 18 August

NOT INCLUDE:

- ▶ Registration, workshops and conferences fees.
- ▶ SPA, Golf, and motorsports.

HOTEL ADDRESS:

- ▶ Carretera Cancún-Chetumal km. 340, 77500 Cancún, Quintana Roo.

Registration Fees

Registration Fees for the 17th WVPA Congress 2011, Cancun, in USD with Taxes Included

| | Category | Payment before January 15, 2011 | Payment from January 16 to July 15, 2011 | Payment after July 15, 2011 |
|---------------------|--------------------------------------|------------------------------------|--|--------------------------------|
| Registration | PARTICIPANT | | \$580.00 \$680.00 | \$780.00 |
| | PRESENTER (ORAL/POSTER) ¹ | | \$420.00 \$420.00 | Not possible |
| | ACOMPANYING PERSON | | \$140.00 \$140.00 | \$160.00 |
| | STUDENT | | \$290.00 \$290.00 | \$310.00 |

They include:

- ▶ Welcome Reception
- ▶ Access to the Conferences of the general scientific program, poster area, pre-congress and afternoon Symposiums, handouts.
- ▶ Access to the exposition area and services provided there.
- ▶ Services: Internet access, snacks, coffee, softdrinks, simultaneous translation English-Spanish
- ▶ Lunches
- ▶ Materials: Program badge, notepad, pen, proceedings
- ▶ USB, diploma of participation, gift
- ▶ Access to entertainment activities scheduled in the general program
- ▶ Gala Dinner
